

Dr Zark/pdf on 11 X 17 inch Tabloid Sized Paper with Simplified Portrait Printing Instructions for creating a brochure. This method below does not use the brochure-making function (that may be found in software or the printer). Hopefully this will be a fool proof way to make this brochure, as sometimes brochure-making functions do not always cooperate correctly between computers apps and printers as well as intended.

- Select Paper Size TABLOID 11 X 17 inches
- Select Two-sided Printing
- Select Short-edge flip
- Select 1 page per side
- Select Orientation: portrait
- Select Print Quality: Highest
- Select Color: high quality gray-scale
- 
- 

Dr Zark 11 X 17 Tabloid Portrait View Item List for Printing the pages are rotated to the right as viewed on a vertical/portrait rotated monitor, (2 pages per sheet side), but the sheet is situated vertically with the sheet label (ex. Sheet 1 Front) as right side up positioned in the middle of the sheet while in portrait view as viewed on a rotated to the vertical/portrait positioned monitor.
